

T3 Microphones

Tap-to-Talk Student Mics

T3 SHAREMIKE

T3 FLEXMIKE

Ensure every voice is heard

A simple, wireless microphone for every student.

T3 microphones with tap-to-talk functionality allows students to simply tap a button and begin speaking into their microphone.

Build an environment of sharing

Create and facilitate student-centered learning and collaboration.

Increase student participation

Student microphones build enthusiasm to share and ensure students are clearly heard by their peers.

Build confidence and presentation skills

Sharing with the whole class allows students to feel more comfortable as they develop critical communication skills.

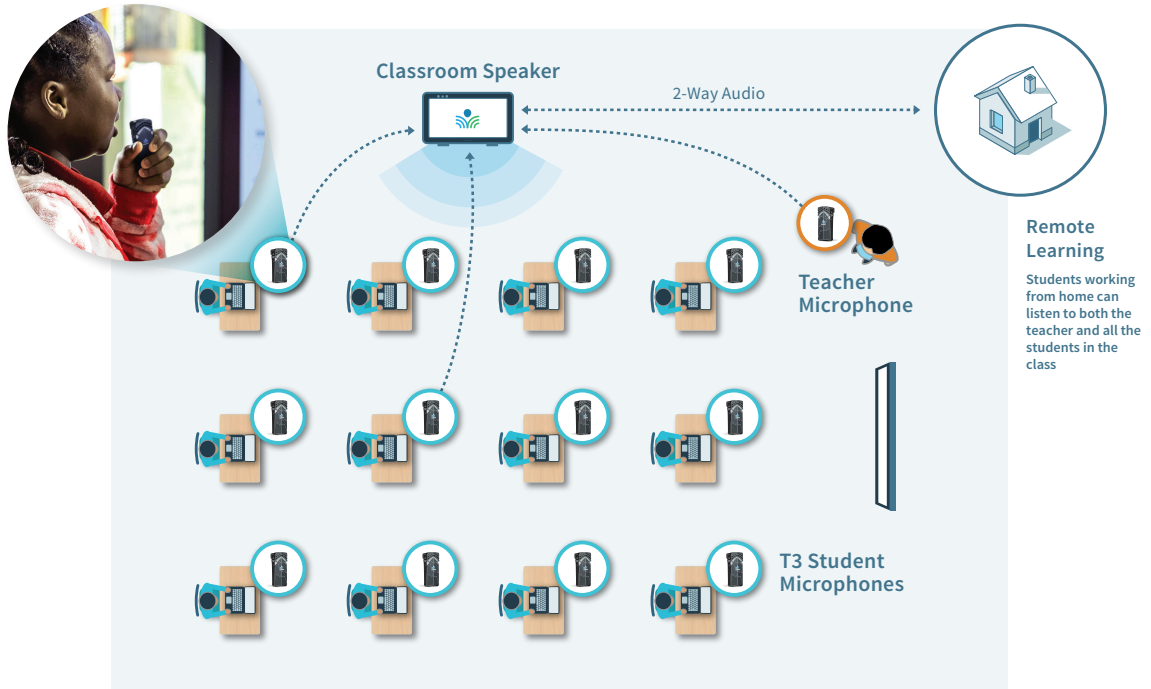

T3 Microphones

TAP-TO-TALK STUDENT MICROPHONES

Clear student voices in the room and remote locations

Keep students engaged with their teachers and peers with a classroom speaker system, teacher microphone, and a T3 microphone for each student.

Students simply tap the button to talk and they can clearly be heard in the room through the classroom speaker and by their peers in remote locations when integrated with the teacher, computer or interactive display.

T3 Features

- Each student in the room can have their own microphone, so there is no need to pass around.
- Up to twelve T3 microphones can be connected to a single system.
- T3 Flexmikes can be worn around the neck, and T3 Sharemikes used as a handheld mic.
- Only one T3 microphone broadcasts at a time to eliminate feedback or interference concerns.
- Interface with your computer or video conference solution to ensure students can clearly be heard by their peers in remote locations.
- Wireless and battery powered, microphones operate for a full school day (up to 8 hours) and recharge nightly.
- No additional control or management required by the teacher.

Add to a new Lightspeed Audio System

Connect up to twelve T3 microphones to a Redcat, Topcat or 975 instructional audio system

Redcat

Topcat

Bring Tap-to-Talk to your existing system

T3 microphones connected to Access Link can interface with any existing classroom audio system

Access Link

Nightly charging made simple

Every T3 microphone kit comes with cradle chargers for reliable charging
