

# Catch the conversation.

## Audio that keeps pace with active learning.

Lightspeed Qball is a durable, smart microphone that makes it easy and fun for students to share their voice from anywhere in the room.

Qball livens up lessons and jumpstarts student participation.

Toss it, bounce it, engage learning in the right moment.

Works with your existing Lightspeed mics

The Qball is a smart microphone that knows when it is being tossed and automatically mutes itself to avoid unwanted noise.
