

Media Connector

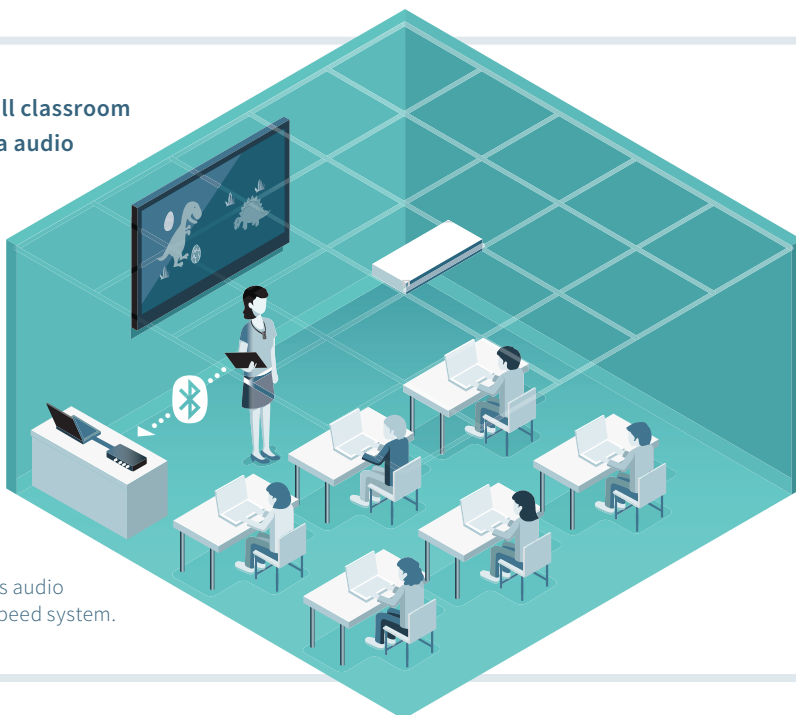

Wireless Multimedia Integration

Connect computers, displays, and mobile devices with ease. Bluetooth is also available, enabling streaming from phones and tablets without any cables. Teachers gain the freedom to share audio content instantly, while students benefit from crystal-clear sound that fills the room.

The Media Connector delivers reliable, interference-free performance so every learner stays engaged and connected.

Integrate all classroom multimedia audio sources.

No more cable runs!
Send wireless audio to the Lightspeed system.

SPECIFICATIONS

Description	Wireless audio transceiver
USB Power	5V USB-C connector
Wireless Communication	Access Technology (1.9 GHz)
Tone Control	1 bass/treble control
